Dear Sirs,

**RE: FORMATION OF INTERNATIONAL COMMISSION ON ILLUMINATION
(CIE) NATIONAL COMMITTEE IN MALAYSIA**

Season's Greetings.

On behalf of TEEAM, I bring to all those who are interested and committed to the science & art and involved in the business of lighting. Many of us have heard and are aware of the International Commission on Illumination, commonly referred to as the CIE for sometime now. The TEEAM sponsored Pro-tem Committee is in the process of forming and realising the Malaysia CIE National Committee.

You will be glad to note the Standards Malaysia (formerly known as DSM) has already accepted and approved an earlier TEEAM proposal with relevant funding of CIE fees. It is the hope of our lighting industry to take the best advantage out of this opportunity to participate in the international forum, develop relevant standards, part take in liaison and technical interaction with other international organisations so as to improve and upscale the Malaysian industry towards international best practice standards.

TEEAM hosts and promotes the Pro-tem Committee and is helping to facilitate the Secretariat's efforts for the promotion of globalising the Malaysia CIE National Committee.

We welcome your kind cooperation, active participation and meaningful contribution towards the formation of the Malaysia CIE National Committee.

The details of the programme will be emailed to interested participants and will be posted onto the TEEAM website (www.teeam.com). For those who have yet to sign up, please take this opportunity to do so as we plan to have many interesting activities planned in the coming months and as a member of CIE. Meanwhile, the attachment maybe of interest to you, it is on the subject of why Malaysia needs to participate in CIE.

We look forward to your full and kind cooperation on the above matter.

Thank you and warm regards.

Yours sincerely,

C. J. Siew

For and on behalf of

Pro-Tem Committee of Malaysia CIE National Committee (MCIE)
