

Unity and diversity within one concept

From road and town square lighting to airport and stadium lighting - Siteco outdoor luminaires offer lighting solutions for every possible outdoor requirement. In the area of interior lighting, Siteco convinces with design-oriented and innovative products for the lighting of office and industrial buildings as well as sports arenas, shopping centres, public buildings and many others. When designing and selecting a suitable lighting concept, the requirements of people in respect to their spacial needs come first and foremost. That is why Siteco has organised its business activities according to the following central themes: office, industry, traffic, shopping, public, sports. As a matter of course Siteco lighting solutions go easy on energy resources and, thus, combine impact with sustainability.

Light. The source of our inspiration.

Siteco sets the example

Technology leads the way

Siteco is one of the leading suppliers and manufacturers of technical indoor and outdoor lighting as well as customer-specific lighting solutions. As an industry leader, Siteco is renowned for innovation, quality and service within the lighting industry. Our high level of competence in the project sector is a decisive driving-force for innovative technologies, new products and user-oriented solutions. With ELDACon® micro-prism technology, the Hexal® hexagonal structure and Siteco Mirrortec® secondary reflector technology, Siteco is a convincing partner for electrical and lighting consultants as well as acclaimed architectural partnerships such as GMP, RKW, Murphy Jahn, Herzog de Meuron and Fosters. Siteco shareholders are the international investment group JP Morgan.

Future and tradition belong together

As a company that has more than 50 years of history, Siteco has defined lighting technology. We combine technological ideas with a feeling for what is possible, and product perfection with a service mentality. Values grown out of tradition such as innovation, quality and service play a decisive role. More than 1,500 employees take time for our customers. They act in order that you as a customer may profit from that which makes us a premium supplier: competitive, fair conditions, a high quality of service, swift decisions and above all sensible lighting solutions.

Siteco at a glance

Innovation with tradition

- 1862 Siemens and Halske starts production of the first arc lamps and lays the foundation for the development of lighting technology
- 1880 Lighting systems found across Europe
- 1949 Production of Siemens domestic appliances and luminaires transferred from Berlin to Traunreut
- 1997 Spin-off of the lighting technology. The lighting factory gets a new name: Siteco
- 2006 More than 300 employees in sales and marketing worldwide work for innovative projects

1,500 employees worldwide.

Manufacturing locations in

- Traunreut, Germany
- Istanbul, Turkey
- Langfang Hebei Province, China
- Puchong, Malaysia

Over 20 company-owned distribution offices worldwide.

Success - a question of strategy

- The specialists for all important lighting applications: office, industry, shopping, traffic, public and sports
- Innovation-driver in all areas of light: indoor lighting with daylight system integration, outdoor lighting.
- Quality, service and innovation as brand values that guide the thinking and activities of all Siteco teams.

The Siteco 'Light for vitality' claim

In order to design a diverse range of indoor and outdoor spaces with light, manifold lighting concepts are needed. Siteco lighting solutions are focused upon people and architecture.

The Siteco claim 'Light For Vitality' is supported by perceptions about the well-being of people under conditions of daylight, and its effect as an internal clock for the body's biological rhythm. Siteco daylight systems direct diffuse daylight into a building and create a uniform light intensity within its spaces. In this way, the benefits of dynamic daylight for people can be decisively enhanced.

One step ahead

Siteco makes success plannable with

- innovative technologies
- qualitative design
- a reliable product quality
- a high level of competence within the project business
- a combination of professional and service know-how
- a wide product spectrum
- the solidity of a worldwide group
